## WORK EXPERIENCE

### GDGC CET

Tech Subpanel

Oct 2025 - Present

### Glitch CET

Technical Member

Oct 2025 - Present

### Fiverr

Freelance

Mar 2022 - Present

## EDUCATION

### Vivekodayam Boys Higher Secondary School

Grade 12 - 97.1%

Mar 2022 - 24

### College of Engineering, Trivandrum

BTech in Electrical and Computer Engineering

Aug 2025 - Present

## PROJECTS

### Aura Text

Winter 2022

- Advanced IDE with Plugin architecture, Git, Syntax highlighters, etc built using pure python, from scratch.
- Uses PyQt6 and QScintilla
- Uses self-made plugin architecture for extension support
- Came up in multiple blogs, and was also on GitHub trending for 2 times
- <https://github.com/rohankishore/Aura-Text>

### Koodaram

April 2025

- Hostel Finder platform for students
- Built using Vanilla HTML5, CSS and JS
- Consists of 100+ Hostels across 8 colleges (which include CUSAT, GECT, RIT, etc)
- Crossed 3000+ Users
- <https://koodaram.vercel.app/>

### Schemix

May 2025

- An IDE for Engineers, Scientists and Students made entirely with Python
- Uses PyQt6 for UI
- Support for rich note-taking, graph plotting, offline periodic table, unit conversion, scientific calculations, and markdown + LaTeX rendering
- Electric Circuit Analysis
- SPC Analysis
- Spring Analysis
- Chemical Reaction Balancer
- <https://github.com/rohankishore/Schemix>

## **SKILLS**

- Python - PyQt6, Tkinter, NumPy, Matplotlib, etc
- Web Dev - HTML, CSS, JS (Basics)
- Data Handling - JSON, CSV, etc
- Team Collaboration
- Project Management
- Innovation and Creativity

## **ACHIEVEMENTS**

- Won "The Final Commit" hackathon conducted by KSU CET CSE Department, where I built a working Civil Canteen digitilisation prototype, with real-time verification via QR scanning, in UPI fashion.
- Finalists at HashitUp '25 hackathon conducted by MBBCET, Kuttikanam and CareStack. We built Savr, a platform that connects restaurants to NGOs to distribute surplus food
- Made to GitHub trending 3 times across different timelines
